New three-line VSA calls at SA ports

The 2M vessel sharing agreement (VSA) founded by MSC and Maersk Line has just added Mitsui OSK Lines (MOL) to its stable.

Due to set sail from the first week of July, the new VSA will operate 22 vessels on two new loops.

The first loop sails from the Far East to East Coast South America (ECSA) calling at the Port of Coega on the return east-bound leg.

The second loop connects the same two continents but calls at Cape Town and Durban on the east-bound leg.
