Logistics breakfast to address key roadfreight issues

The Johannesburg Chamber of Commerce and Industry will host a high-level speaker line-up tomorrow (May 12) on issues of concern affecting the roadfreight industry.

Panellists will include Gavin Kelly from the Road Freight Association, Lovemore Bingadadi from the SADC secretariat, and Paul Nordengen of CSIR on the RTMS. Department of Transport representatives will be on hand to address issues related to consignee/consignor liability, high cube container road transport and also the potential traffic ban on freight carriers over peak hours.
